Artwork Guidelines

We make it easy for you, we can work with many types of digital artwork files provided:

- It is vector based AI, EPS or PDF file with all fonts converted to outlines and all placed images embedded or;
- It is a high resolution bitmap image (JPG, TIF, GIF, PNG) saved at 300 dpi AND at imprint size or larger.

Bitmap images that start out as low resolution graphics cannot be saved at a higher resolution. Low resolution images will lower the quality and clarity of your finished lure. Minimum font size is 6 point.
